MEET ESTER:

Ester Thompson is a native of New Orleans, Louisiana. In 1997, she earned a bachelor's degree in biology from Loyola University and, soon after, a Master of Physical Therapy from the University of St. Augustine for Health Science in St. Augustine, Florida.

Since 2000, her physical therapy experience consists of over 22 years in an outpatient setting with an orthopedic emphasis in the South Tampa area. After graduation, Ester has continued her education by attending professional education courses in sports specific injuries and injury prevention. Ester delivers a "hands-on" treatment approach and incorporates a wide variety of treatment methods into each individualized plan. She has worked closely with orthopedic physicians that have specialized in sports medicine for the last 13 years in Tampa Bay. Ester is bilingual, allowing her to treat Spanish speaking patients with ease.

Ester, her husband, and their twin boys enjoy living a happy and healthy lifestyle and promote health and wellness. Ester is excited to begin this journey with you and focus on helping each patient reach his or her individual goals. She believes that every patient should leave therapy feeling better than they came in and come back feeling better than they left.
